Subject Quick Changes to Calibration Methods/Coefficients

Description of Problem or Suggestion:

Does the design provide for the capability to make quick, "on-the-fly" changes to calibration methods or coefficients in a manner similar to the one provided for making temporary limit changes?

Originator's Recommendation

Clarify. If not currently included in design, assess impact to provide.

HAIS Response Date 1/18/95

While the telemetry design will not permit temporary changes to calibration method (EU conversion) equations, a mechanism to temporarily alter equation coefficient values will be available to users. This capability will be added to the telemetry requirements and design, in the next version to be released 1/31/95.
